# About Australian education

As an international student on a student visa, you must study with an institution and in a course that is registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). CRICOS registration guarantees that the course and the institution at which you study meet the high standards expected by international students.

Along with the ESOS Act and National Code, there are also regulatory and quality assurance organizations for higher education and VET institutions. These government organizations are responsible for registration/re-registration of institutions and accreditation/re-accreditation of courses.

**Higher Education** - [Tertiary Education Quality and Standards Agency \(TEQSA\)](#)
